

Welcome to the final edition of the digital newsletter this school year. We break up for the Summer holidays on Friday 17th July, and look forward to welcoming ALL pupils back to school on WEDNESDAY 2nd SEPTEMBER 2020. A separate letter of information will be sent to you with all the details you will need for then.

Thank you

Thank you parents and pupils for coping so well with the turbulent times we have had this year– for the remote learning that has taken place, for supporting the return to school for some pupils and helping this to be safe and successful.

Thank you to staff and Governors who have supported the school to ensure it has remained safe and allowed pupils back to learning as quickly as possible.

Farewell

This summer we are saying farewell to Mr Thompson and Mrs Wharton. Mr Thompson is taking up a post at a school in London and we wish him well. Mrs Wharton is retiring after working at the school for more than twenty years! We know many of you know her well and will join us in thanking her for her hard work and commitment to the school, and wish her a restful retirement.

We would also like to wish our Year 6 pupils a successful transition to secondary school. Miss Worth, Miss Clarke and Mr Smith have enjoyed working with you this year and were disappointed that it ended so abruptly. It will be good for you all to get some sense of normality back in September.

Keep being the best you can be!

Welcome

We are pleased to announce that Miss Wigmore, who has been working in school since February, will be remaining with us as the Year 1 teacher from September. We would also like to welcome a new teacher, Mr McDonnell, who will be teaching Year 4.

Summer Reading

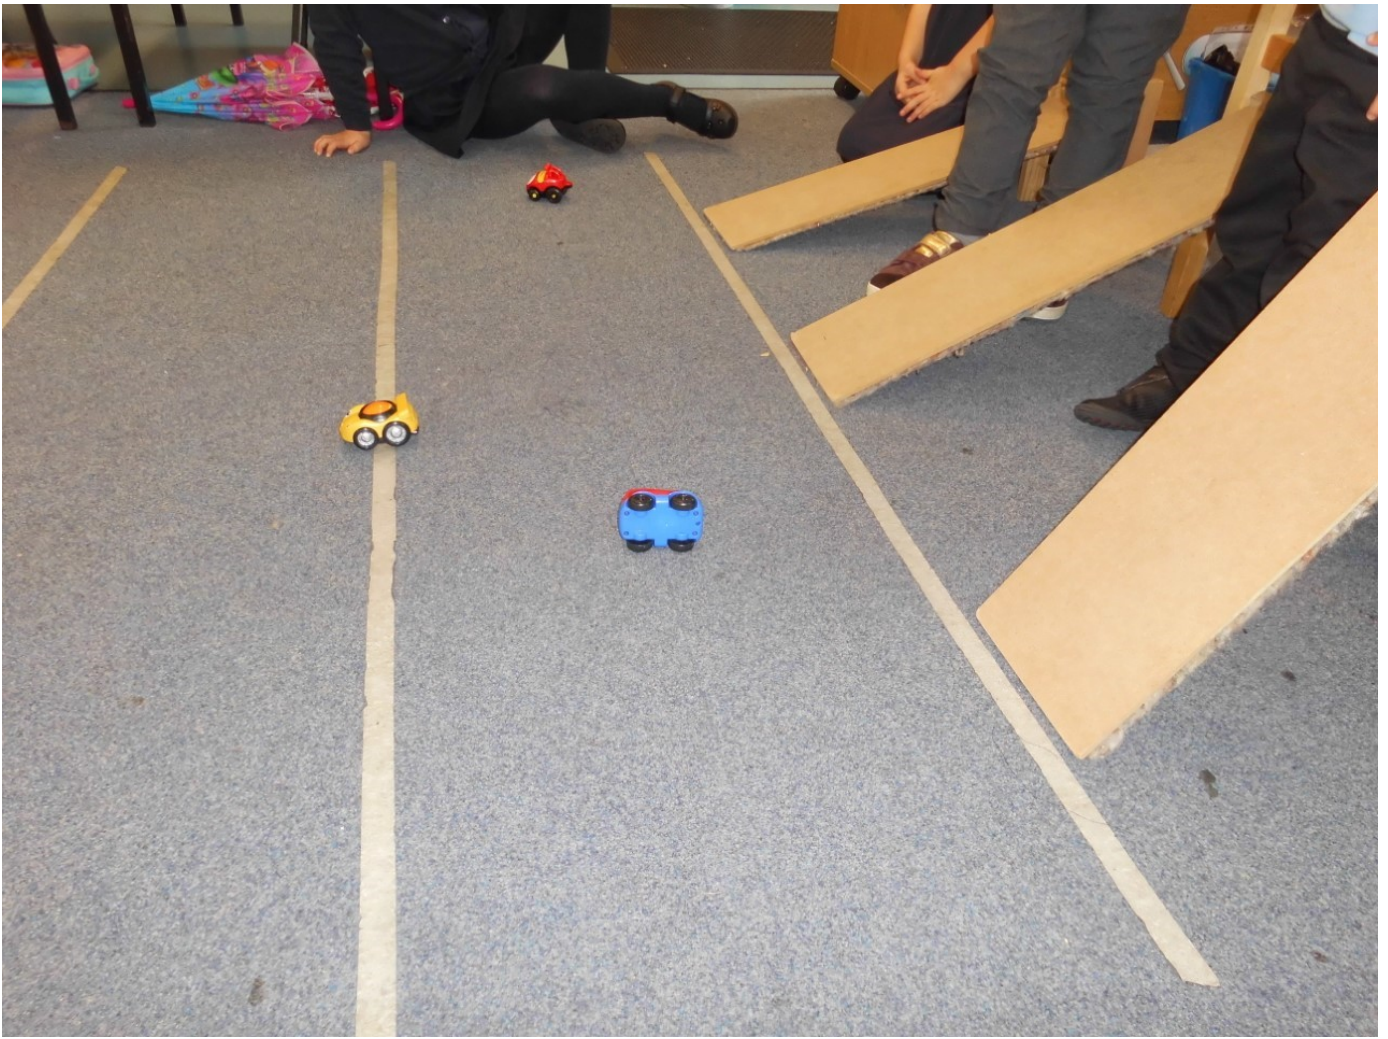

Usborne have launched a Summer Read Adventure scheme for KS1,2,3 and 4 age children. Further information can be found on the website: <https://www.newbolsover.derbyshire.sch.uk/home-learning/home-learning-english>

Another Summer reading challenge can also be found at: <https://summerreadingchallenge.org.uk/>

Busy Bees

We have had a magical week in Reception! We have created our own magic wands and we have been writing our own stories. In maths we have been learning all about measuring height and length using cubes and comparing which cars have travelled the furthest down the ramps.

Miss Wigmore's group

This week in maths we have been learning about 3D shapes. We have learnt how to draw nets that we have used to make our own 3D shapes. On Wednesday, we made cubes which we turned into dice and used to play a game of snakes and ladders.
